

**The content of lectures in HUMAN ANATOMY
for the first year students, II semester, Faculty of MEDICINE nr. 1,
academic year 2024-2025**

| | THEME | Thursday, 12⁰⁰ (Aula A) (gr. M2444) | LECTURERS |
|------------|--|---|--------------------|
| 1. | Central nervous system – generalities. Functional anatomy of the spinal cord | 06.02.2025 | A. Bendelic |
| 2. | Functional anatomy of the brain. Reticular formation. Limbic system | 13.02.2025 | T. Hacina |
| 3. | Functional anatomy of the spinal and cranial meninges. Conducting pathways of the central nervous system | 20.02.2025 | A. Babuci |
| 4. | Functional anatomy of the autonomic nervous system. Generalities. Central and peripheral levels. | 27.02.2025 | T. Hacina |
| 5. | Functional anatomy of the autonomic nervous system. Sympathetic, parasympathetic and enteric nervous systems. | 06.03.2025 | T. Hacina |
| 6. | Functional anatomy of the sensory systems | 13.03.2025 | A. Babuci |
| 7. | Functional anatomy of the cranial nerves, I part. | 20.03.2025 | L. Globa |
| 8. | Functional anatomy of the cranial nerves, II part. | 27.03.2025 | L. Globa |
| 9. | Functional anatomy of the vascular system of the head and neck | 03.04.2025 | T. Hacina |
| 10. | Functional anatomy of the lymphoid system | 10.04.2025 | L. Globa |
| 11. | Vasculature and innervation of the heart Functional anatomy of the cardiovascular system | 17.04.2025 | A. Bendelic |
| 12. | Functional anatomy and variability of the blood vessels of the limbs | 01.05.2025 | A. Bendelic |
| 13. | Radiological and sectional anatomy of the trunk | 08.05.2025 | L. Globa |
| 14. | Microcirculation and collateral circulation | 15.05.2025 | A. Babuci |
| 15. | Peculiarities of innervation of the viscera and somatic structures | 22.05.2025 | T. Hacina |

Head of the Department,

Professor

Iliia Catereniuc
